

Logistics overview

Delivery of transport box

 Patient  ASC Oncology

ASC Oncology provides the transport box with the transport tubes to the patient who brings them to the doctor's office or hospital for tissue sample collection.

Tissue sample collection

 Physician

The fresh sample is transferred to the transport tube during a resection or biopsy and stored at 4 °C until pick-up.

Return shipment

 ASC Oncology

After the sample has been packaged, all you need to do is call ASC Oncology. We will arrange for pick-up and immediate shipment to our laboratory.
